

9. – 11. September 2025, Cottbus

DECARBONISATION SUMMER SCHOOL

Are you passionate about making a real impact on climate protection and decarbonisation? This 3-day event offers young talents from academia, industry and society a unique opportunity to connect, innovate, and contribute to industrial energy transition. Engage in a hands-on design sprint, tackle a real-world case challenge, and collaborate with leading experts through site visits and a background networking conference.

What to expect

Industry Insights
Design Sprint
Networking
Presentation Skills

What we aim for

Knowledge Transfer
Practical Transfer
Multi-perspective Collaboration
Inspiration and Motivation

Showcase your solutions and network with peers at the CDI Summer Summit through innovation pitches.

Apply now and become part of a transformative experience!
